

Section 1: Identification of Material and Supplier

GHS Product Identifier

Just Resin ARC (Acrylic Resin Casting) Liquid

Other means of identification

UN Number: Not Applicable

Recommended use of the chemical and restriction on use

Plaster & Acrylic Resin Composite for Casting/Encapsulation/Moulding

Supplier's details

Just Resin
PO BOX 123, Deer Park, 3023
info@justresin.com.au
Ph: 03 8358 4961

Emergency phone number

Ph: 1800 022 037 or 000 (Police/Fire/Ambulance)

Section 2: Hazard(s) Identification

Classification of the substance or mixture

NOT CLASSIFIED AS HAZARDOUS ACCORDING TO SAFE WORK AUSTRALIA CRITERIA

GHS Label Elements

No signal word, pictograms or hazard have been allocated.

Hazard Statements

No information provided.

Precautionary Statements

P102: Keep out of reach of children.
P103: Read label before use.

Response:

No information provided.

Other Hazards

None Known

Section 3: Composition/information on ingredients

Chemical Name	Cas No	Weight %
Water	7732-18-5	<50
Waterborne Acrylic dispersion	Proprietary	<50
Trade Secret		<5

The exact chemical identity and/or exact percentage (concentration) of each ingredient may be held as a trade secret. Ingredient ranges provided may represent actual concentration ranges. Any ingredient not disclosed may have been determined not to pose a health or environmental hazard, or may only be present in concentrations that do not require disclosure. Refer to Section 3 on Preparation Of Safety Data Sheet For Hazardous Chemicals (Code of Practice).

Section 4: First Aid Measures

- General Advice:** Seek medical advice. If breathing has stopped or is laboured give assisted respirations. Supplemental oxygen maybe indicated. If the heart has stopped begin cardiopulmonary resuscitation immediately.
- Inhalation:** Move subject to fresh air.
- Ingestion:** Rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water to drink. Never give anything by the mouth to an unconscious patient. If vomiting occurs give further water. Seek medical advice.
- Skin:** Wash affected area thoroughly with soap and water. Remove contaminated clothing and wash before reuse or discard. If symptoms develop seek medical attention.
- Eye:** If contact with the eye(s) occurs, wash with copious amounts of water holding eyelid(s) open. Take care not to rinse contaminated water unto the non-affected eye. If symptoms persist seek medical attention.
- First Aid Facilities:** Wash out immediately with fresh running water.
- Advice to Doctor:** Treat symptomatically.
- Other Information:** For advice, contact a Poisons Information Centre (Australia 131 126).

Section 5: Fire Fighting Measures

Suitable extinguisher media

If material is involved in a fire use water fog (or if unavailable fine water spray), alcohol resistant foam, standard foam, dry agent (carbon dioxide, dry chemical powder).

Specific hazards arising from the chemical

Under fire conditions, toxic fumes may be emitted. In extreme heat oxides of Carbon and sulphur dioxide gas may be released.

Precautions in connection with fire

Not applicable.

Section 6: Accidental Release Measures

SMALL SPILLS: Wear protective equipment to prevent skin and eye contamination. Wipe up with absorbent (clean rag or paper towels). Collect and seal in properly labelled containers or drums for disposal.

LARGE SPILLS: Clear area of all unprotected personnel. Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contamination and the inhalation of dust. Work up wind or increase ventilation. Cover with damp absorbent (inert material, sand or soil). Sweep or vacuum up, but avoid generating dust. Collect and seal in properly labelled containers or drums for disposal. If contamination of crops, sewers or waterways has occurred advise local emergency services.

Dangerous Goods - Initial Emergency Response Guide No: Not applicable

Section 7: Handling and Storage

Storage

Precautions for safe handling: Wash thoroughly after use. Avoid direct contact with eyes or prolonged contact with skin. Wear appropriate protective equipment to prevent eye contact. Handle and use in accordance with good occupational hygiene and safety practice.

Conditions for Safe Storage: Store in a cool, dry, well-ventilated area out of direct sunlight. Store away from foodstuffs. Store away from incompatible materials described in Section 10. Store away from sources of heat and/or ignition. Keep container standing upright. Keep containers closed when not in use - check regularly for spills.

Section 8: Exposure Controls / Personal Protection

National Exposure Standards: No exposure standards have been established for this material by the Australian National Occupational Health and Safety Commission (NOHSC) or the Occupational Safety and Health Service (OHS) of the New Zealand Department of Labour. However, exposure standards for ingredients are stated below.

Biological Limit Values: No biological limit allocated.

Engineering Controls: Work in the open air and external openings (such as doors and windows in buildings) which generally provides adequate ventilation. Local mechanical ventilation or extraction may be required to control airborne dust levels. Hand tools generate less dust when cutting, drilling or sanding. If power tools are used, they should be fitted with efficient and well-maintained dust extraction devices. If generated dust cannot be avoided, follow personal protection recommendations. Where possible vacuum or wash down all gear, equipment or mobile plant prior to maintenance and repair work. If compressed air cleaning cannot be avoided, recommendations on Exposure Control and Personal Protection should be followed.

Respiratory Protection: Where ventilation is inadequate the use of an Air Purifying Respirator with a replacement organic vapour filter complying with AS/NZS 1716 is recommended.

Eye Protection: Safety glasses with side shields, goggles or full face-shield as appropriate recommended. Final choice of appropriate eye/face protection will vary according to individual circumstances i.e., methods of handling or engineering controls and

JUST RESIN GHS SAFETY DATA SHEET

according to risk assessments undertaken. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 – Eye protectors for Industrial Applications.

Hand Protection: Wear gloves of impervious materials such as impervious PVC or rubber gloves. Final choice of appropriate gloves will vary according to individual circumstances. i.e. methods of handling or according to risk assessments undertaken. Reference should be made to AS/NZS 2161.1 Occupational protective gloves – Selection use and maintenance.

Body Protection: Suitable work wear should be worn to protect personal clothing. Industrial clothing should conform to the specifications detailed in AS/NZS 2919: Industrial Clothing.

Section 9: Physical and Chemical Properties

Form:	Milky White Liquid
Colour:	White / Off-White
Odour:	Odourless to slight Acrylic Odour
pH:	7 – 8.5
Melting Point:	Not Applicable
Boiling Point:	~100°C
Flash Point:	Non-Allocated, Non-Combustible
Vapour Density:	Not Available
Vapour Pressure:	23 mbar as water
Density:	1.05 g/cm ³
Solubility in water:	Miscible
Auto-Ignition Temperature:	Not Available
Flammable Limits-Lower:	Not Available
Flammable Limits-Upper:	Not Available

Section 10: Stability and Reactivity

Chemical stability: This material is thermally stable when stored and used as directed.

Conditions to avoid: Not Available

Incompatible materials: Not Available

Hazardous decomposition products: Not Available

Hazardous reactions: No known hazardous reactions.

Section 11: Toxicology Information

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Acute Effects

- Inhalation:** Inhalation of vapours or mist can cause the following nausea, headache, irritation of the throat, nose and lungs.
- Skin contact:** Contact with skin may result in irritation.
- Ingestion:** Swallowing can result in nausea, vomiting and irritation of the gastrointestinal tract.
- Eye contact:** May be an eye irritant. May cause physical irritation to the eyes.

Acute toxicity

- Inhalation:** This material has been classified as non-hazardous. Acute toxicity estimate (based on ingredients): LC50 > 10 mg/L.
- Skin contact:** This material has been classified as non-hazardous. Acute toxicity estimate (based on ingredients): >5,000 mg/Kg.
- Ingestion:** This material has been classified as non-hazardous. Acute toxicity estimate (based on ingredients): >5,000 mg/Kg.
- Corrosion/Irritancy:** **Eye:** this material has been classified as not corrosive or irritating to eyes.
Skin: this material has been classified as not corrosive or irritating to skin.
- Sensitisation:** **Inhalation:** this material has been classified as not a respiratory sensitiser.
Skin: this material has been classified as not a skin sensitiser.
- Aspiration hazard:** This material has been classified as non-hazardous.
- Specific target organ toxicity:** Single exposure, this material has been classified as non-hazardous.

Chronic Toxicity

- Eyes:** May cause irritation and inflammation of the eyes and aggravate pre-existing eye conditions.
- Skin:** Repeated heavy contact with the liquid may cause drying of the skin and can result in skin rash (dermatitis) typically affecting the hands. Over time this may become chronic and can also become infected.
- Inhaled:** In extreme cases (due to lack of adequate ventilation) may cause irritation to the nose, throat and respiratory system with effects including dizziness, headache.
- Mutagenicity:** This material has been classified as non-hazardous.
- Carcinogenicity:** This material has been classified as non-hazardous.

JUST RESIN GHS SAFETY DATA SHEET

Reproductive toxicity: This material has been classified as non-hazardous.

Specific target organ toxicity: This material has been classified as non-hazardous.

Specific Toxic Effects: This material has been classified as non-hazardous.

Section 12: Ecological Information

Environmental Protection: Avoid contaminating waterways.

Ecotoxicity: No information available.

Persistence and degradability: No information available.

Bioaccumulative potential: No information available.

Mobility: No information available.

Section 13: Disposal Considerations

Disposal Considerations

Do not dump into any sewers, on the ground, or into any body of water.

Contaminated Packaging

Disposal should be in accordance with the applicable regional, national and local laws and regulations. Observe all label precautions until containers is cleaned reconditioned or destroyed. Refer to all federal, state and local regulations prior to disposal of container and unused contents by reuse, recycle or disposal.

Section 14: Transport Information

Road and Rail Transport: Not classified as Dangerous Goods according to the criteria of the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG Code).

UN: NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

IATA: NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

IMDG: NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

Labels Required

Marine Pollutant: NO

Section 15: Regulatory Information

Australia: Not classified as hazardous according to the criteria of National Occupational Health and Safety Commission (NOHSC)

AICS / NICNAS

All components are listed or are exempt from listing on the Australian Inventory of Chemical Substances (AICS)

JUST RESIN GHS SAFETY DATA SHEET

SUSMP Poison Schedule
